Data-driven CRM & Tech Project Manager with 6+ years of cross-industry experience in Retail, Tech, Pharma, and Insurance. Expertise in CRM strategy, marketing automation, omnichannel campaign execution, and complex CRM ecosystem management across Salesforce, Microsoft Dynamics 365, Loyal Guru, ActiveCampaign, and Connectif. Strong background in workflow automation, process optimization, data analysis and project delivery, with a proven ability to scale operations, improve efficiency, and drive measurable business growth. Experienced in leveraging AI tools and automation platforms to streamline processes, reduce manual effort, and support smarter decision-making.

Work Experience

CRM & Marketing Automation Manager **Bari, Italy**
CoccoleBimbi – e-commerce Kidswear Fashion & Luxury 06/26 – present
Reporting directly to the entrepreneur, I'm in charge of:

- **Managing the Connectif AI-based CRM/CDP platform**, designing and orchestrating advanced marketing automation workflows, audience segmentation and multichannel journeys (email, onsite, SMS) to maximize customer lifetime value and conversion rates
- **Creating and optimizing DEM campaigns**, from targeting strategy to A/B testing and performance analysis, ensuring alignment with brand positioning and seasonal commercial priorities
- **Orchestrating WhatsApp Smart Business (WhatsApp API Platform)**, including template design, automation workflows and webhook-based integrations, to enable conversational commerce and high-touch customer engagement at scale
- **Designing and maintaining API & webhook integrations** between CRM, e-commerce platform and third-party tools, guaranteeing data consistency across the martech stack and enabling real-time triggers for marketing and operational workflows
- **Conducting UAT and API testing with Postman** on automations and integrations, collaborating with developers and stakeholders to ensure reliability, performance and adherence to business requirements.

CRM & e-commerce Manager **Bari, Italy**
Maiora SPA SB – Despar Centro Sud 01/25 – 06/26
Reporting directly to the CMO and managing a team to ensure operational excellence in:

- **Generating €2M in incremental sales** (achieving ~20X MROI) through highly targeted and data-driven campaigns by leveraging Loyal Guru and CPaaS platforms such as WhatsApp API
- **Scaling Glovo Quick Commerce partnership revenue by +100% YoY** through data-driven assortment reviews and technical platform optimization, driving measurable improvements across key operational KPIs including uptime and order volume
- **Spearheading the end-to-end launch of a strategic Just Eat partnership,** owning the full project lifecycle from commercial negotiation and legal agreement through technical integration and Go-to-Market execution, securing €10K in platform co-marketing investment
- **Driving the end-to-end CRM platform migration to SAP Emarsys**, leading the full commercial negotiation through to contract signature and currently overseeing the project rollout (kick off phase) enabling a strategic evolution of the company's marketing automation and CRM ecosystem
- **Implementing, with the IT team**, a WhatsApp onboarding and nurturing automation for new store openings, integrating the internal database with the WhatsApp Business API to send welcome and promotional messages to opted-in loyalty members.

CRM & Marketing Automation Specialist **Brindisi, Italy**
Next AI – Spoki 05/24 – 01/25
Reporting directly to the CMO, I was in charge of driving digital growth and operational efficiency by:

- **Architecting and deploying** advanced Marketing and Process Automation solutions using ActiveCampaign, Zapier, and Make, significantly reducing operational inefficiencies
- **Contributing to a €5.5M Series A funding round** and a 3x YoY (2023-2024) revenue growth by fully automating the marketing funnel and internal processes
- **Optimizing digital touchpoints and SEO strategies** to enhance user acquisition
- **Designing and executing Conversational Marketing campaigns** via WhatsApp Business API, driving complex lead nurturing workflows and maximizing B2B client lifetime value.

CRM Specialist (Salesforce Administrator) **Monza, Italy**
Roche Pharma 01/23 – 05/24
Operating within the Digital department and acting as the main point of contact for the field force, my responsibilities included:

- **Managing Salesforce Health Cloud ecosystem** for Roche Italy, delivering actionable insights, custom reports, and dedicated support to pharmaceutical agents
- **Spearheading the successful Italian market "Go-Live"** for the global CRM migration from Salesforce Classic to Salesforce Lightning, significantly optimizing CRM usability and UX
- **Leading the end-to-end delivery** of a custom Salesforce-integrated survey web app
- **Conducting User Acceptance Testing (UAT)** and translating complex business requirements into scalable technical solutions using Agile/Scrum methodologies
- **Driving the change management and training program for the Salesforce Field Service** iPad rollout across the Italian field force, equipping Medical Science Liaisons with structured onboarding, hands-on sessions, and tailored workflows to maximize CRM adoption and embed digital-first field operations.

RPA Business Analyst **Milan, Italy**
Deloitte (J&J MedTech Consultant) 05/22 – 01/23
Working as a key consultant for Johnson & Johnson MedTech, I was responsible for:

- **Leading requirement gathering** and creating functional documentation for Tender Offices across 3 countries, ensuring perfect alignment between business needs and RPA automation roadmaps
- **Coordinating the development, testing, and release** of 3 RPA web-scraping bots to automate national tender identification, optimizing strategic opportunity discovery
- **Performing comprehensive AS-IS and TO-BE process mapping** to identify automation bottlenecks, fostering cross-functional collaboration between IT developers and business stakeholders.

Microsoft Dynamics CRM Campaign Analyst **Milan**, **Italy**
Lipari Consulting (Cluster Reply Consultant) 09/20 – 05/22
Assigned as a consultant to Reale Mutua Assicurazioni, my core focus was on:

- **Managed end-to-end Campaign Management processes** in Microsoft Dynamics CRM, acting as the key technical and strategic contact for the client
- **Ensured continuous CRM evolution and system reliability (AMS)**, delivering application enhancements, debugging, and executing complex campaign plans over nearly two years
- **Leveraging SQL querying and database management** to extract precise data, define highly targeted audiences, and measure the KPIs of multifaceted omnichannel marketing campaigns
- **Performing pre-production and production testing** for new releases and bug fixes, while acting as a **trusted Customer Success partner to Reale Mutua's Customer Analytics team** to support the successful launch of new CRM campaigns.
